

### **Personal data management**

Your personal data is processed in accordance with the General Data Protection Regulation (GDPR).

For more information, please visit the municipality's website or [1177.se](https://www.1177.se).

### **The assistive devices committee in Värmland**

The assistive devices committee is a collaboration between Region Värmland and the 16 municipalities in the county.

The committee is responsible for ensuring equal access to assistive devices, regardless of where you live.

For more information about assistive devices, visit the healthcare guide at [1177.se](https://www.1177.se)

[www.1177.se/Varmland/Hjalpmedel](https://www.1177.se/Varmland/Hjalpmedel)

You can also find additional information on your municipality's website.

### **Contact details:**

## **Your responsibility for your assistive devices**

**You have borrowed an assistive device from the municipality**

**Please remember that it is your responsibility to:**

- Follow the user manual for the assistive device, as well as the instructions and guidelines you have received.
- Contact the municipality's assistive device service (kommunrehab) if your need for the device changes or if you need adjustment for the device.
- Take care of and store the device responsibly, either on your own or with help from someone else.
- Contact the municipality's assistive device service if any issues arise with your device.
- In case of an incident or accident related to the use of the device, contact the municipality's assistive device service.
- The assistive device is prescribed specifically for you, which means that no one else is allowed to use it.
- When the device has reached the end of its lifespan, it must be replaced.

**If you are moving**

Please contact the municipality's assistive device service (kommunrehab) well in advance of moving out of the municipality. You

will receive information about which assistive devices you may take with you and which must be returned.

If you are moving within the municipality and have a hospital bed or ceiling lift, please contact the municipality's assistive device service for assistance.

**Damage and insurance**

If an assistive device is damaged during transport, you must report it immediately to the transport company.

The municipality does not compensate for damage during transport.

If your assistive device is stolen, damaged, or lost, please contact the municipality for further information.

If you have an assistive device that is considered valuable or at risk of theft, it is important that you review your insurance coverage.

**Return of assistive devices**

Assistive devices must be returned to the municipality's assistive device service when they are no longer needed, regardless of whether you or a prescriber has determined that the need has ended.

All assistive devices must be cleaned before being returned.
